

# Do while loop

```
#include <stdio.h>
```

```
#include <stdlib.h>
```

```
int main()
```

```
{
```

```
    int num,k = 0;
```

```
    do
```

```
    {
```

```
        printf("Enter value of K: ");
```

```
        scanf("%d", &num);
```

```
        k = k + num;
```

```
        printf("Sum value of K is: %d\n",k);
```

```
    }while(num!= 0);
```

```
    printf("Final value of K is: %d\n",k);
```

```
    return 0;
```

```
}
```
